RE: Ecowater update

---

Tiffany

We were hoping to visit Park View and John McDonogh schools if possible. Can that work.

Jim

Jim,

It's unfortunate that you are just now responding with your availability. Also I cannot allow you to visit school sites without providing advance notice to the schools. What schools were you planning to visit?

I can only be available from 10-10:30 AM.

Tiffany

Sorry, I was on a plane today. I was hoping to meet at 10:00 am at your place and then in the PM visit some of

the installs in the schools, does that work for you and your team? I am available all day if not.

Jim

Jim,

Can you follow up via email on if/when this meeting will occur?

**Subject:** Ecowater update

Kerry and Jim,

Are we still planning to meet at OPSB for a follow up conversation on the water filter installation? If so, what time?

Below are the items I have concerns about.

- **Installation Pressure Issues:** It was my understanding that if a filtration system was installed but greatly reduced pressure the install would be disconnected and OPSB would be informed for troubleshooting. OPSB has received zero communication of systems that needed to be disconnected for pressure issues since the Lake Forest ES install on Oct 19<sup>th</sup>.
- **Installation Count and Date:** The last update I received about the count and date of water filter installs was on 11/30.
